GAME

ENGINEERED FOR HUNTERS WHO DEMAND PEAK PERFORMANCE

Our Game series represents the pinnacle of hunting apparel, where every detail is meticulously crafted to enhance your hunting experience. Whether you're tracking deer through thick forests or waiting patiently in a blind, Game is designed to bring you closer to your quarry. With advanced features and superior materials, this series is your ultimate hunting companion. With Game you're ready for any hunting situation.

The Game series is packed with technical functions, varying from integrated heating systems, rubber protection on exposed areas, and a detachable orange pull-over waistcoat to make yourself more visible. Choose between the subtle brown Wood colour, or the effective Realtree Max-7™ camouflage.

Heat / Lady Heat

KEEP WARM IN COLD CONDITIONS

When the temperature drops, you can rely on our Heat series to provide the warmth you need. In each piece of this series, you will find an integrated heat system, which can be turned on and managed at the ease of a single press. Whether you're in search of a cozy mid-layer or an insulating outer layer, Heat has your back. With its innovative design, this series ensures you stay warm, allowing you to focus on your hunt rather than the chill.

INSTRUCTIONS

How to use your new HEAT product

Attach a powerbank to the cable inside of the product by using the USB port, then turn it on. After it has been activated, place the powerbank in the designated pocket of your HEAT product.

To activate the heat function press and hold the power button until the light turns on.

Choose one of following temperatures:

Red light - high temperature.

Green light – medium temperature.

Blue light – low temperature.

To turn off the heat function press and hold the power button for 3 seconds or until the light turns off.

Wash and care

1. Always remove powerbanks when washing your heat products.
Make sure to put on the safety stopper on the USB cable before washing to protect it.
2. Use a gentle program of maximum 30°C without softener.
3. No dry cleaning.
4. No ironing.

Furthermore, we recommend

Please disconnect and remove the powerbank before long time storage of your HEAT product.

All the components of the HEAT system are securely tested as well as they are CE and RoHS approved. Your safety is our concern!

Tested up to 10.000 mAh.

MUFLON

Muflon / Lady Mary

BUILT TOUGH FOR THE RUGGED OUTDOORS

Muflon is the workhorse of our collection, built to withstand the harshest conditions nature can throw at you. It's the series that thrives under pressure, just like you do. With rugged durability and a design that's ready for anything, Muflon is the partner you can trust when venturing deep into the untamed wilderness. So, go ahead and push the limits; Muflon can take it.

Muflon is the oldest running series in our collection and is still to this day a favourite among many hunters. The versatility and craftsmanship of Muflon is two of the key factors to why it has aged so well.

RAM

Ram / Lady Raven

ELEGANCE MEETS FUNCTION

For those who demand elegance without sacrificing warmth, our Ram series offers the perfect blend of style and functionality. When you're waiting for the game in the brisk cold, Ram keeps you comfortably snug. Its sleek design doesn't just fend off the chill; it makes a statement. Ram is the choice for those who refuse to compromise in the wild.

REALTREE EDGE® ORANGE

For visibility in the winter, choose the Arctic version of this series, which is available in two versions of the Realtree Edge® - Orange and Red. Choose the orange for visibility on your winter driven hunts, or the red version, which you can only find in the Deerhunter collection.

STRIKE

Strike / Lady Ann / Youth Strike / Tights

BE PREPARED FOR THE NATURE'S ELEMENTS

When you're facing challenging terrain, dense undergrowth, or embarking on an outdoor adventure, our Strike series equips you with the gear you need to conquer it all. It doesn't matter if you're going through tough terrain or traversing rugged landscapes; Strike keeps you prepared and protected. This series is for hunters who crave adventure and aren't afraid to push the boundaries of the wild.

The Strike trousers' main focus is comfort and freedom of movement, which makes them perfect for both hunting and outdoor scenarios. Available in green and brown hunting colours, but also in more vibrant colours, which fits perfectly into most outdoor wardrobes.

For unmatched durability, choose the Strike Extreme version, which will take you through any type of terrain, and keep you visible, while traversing it.

Adapt the pieces to your need, with a subtle green-toned colourway, which suits most hunting scenarios, Or choose the orange coloured styles, for when visibility is key.

NORTHWARD / TRAVELER

Northward Family / Traveler Family

A VERSATILE AND COMFORTABLE ADDITION TO YOUR OUTDOOR WARDROBE

Northward marks the evolution of a beloved trouser, integrating strategic panels for durability within its full-stretch fabric, offering resilience and comfort for a wide range of activities. If all of that is not enough to suit your needs, the trousers have also been designed with lots of storage in mind, so you can be at ease knowing that all of your essentials will always be within reach.

The perfect pair of trousers for everyday wear are now also complimented by a comfortable fleece jacket, a padded jacket, and a padded waistcoat, where you can mix the colors to suit your wardrobe needs. Match them with the Northward trousers, or the comfortable Traveler trousers, available in colours that fits the colour scheme.

TRAVELER TROUSERS & VICTOR SHIRT

CANOPY / MATOBO

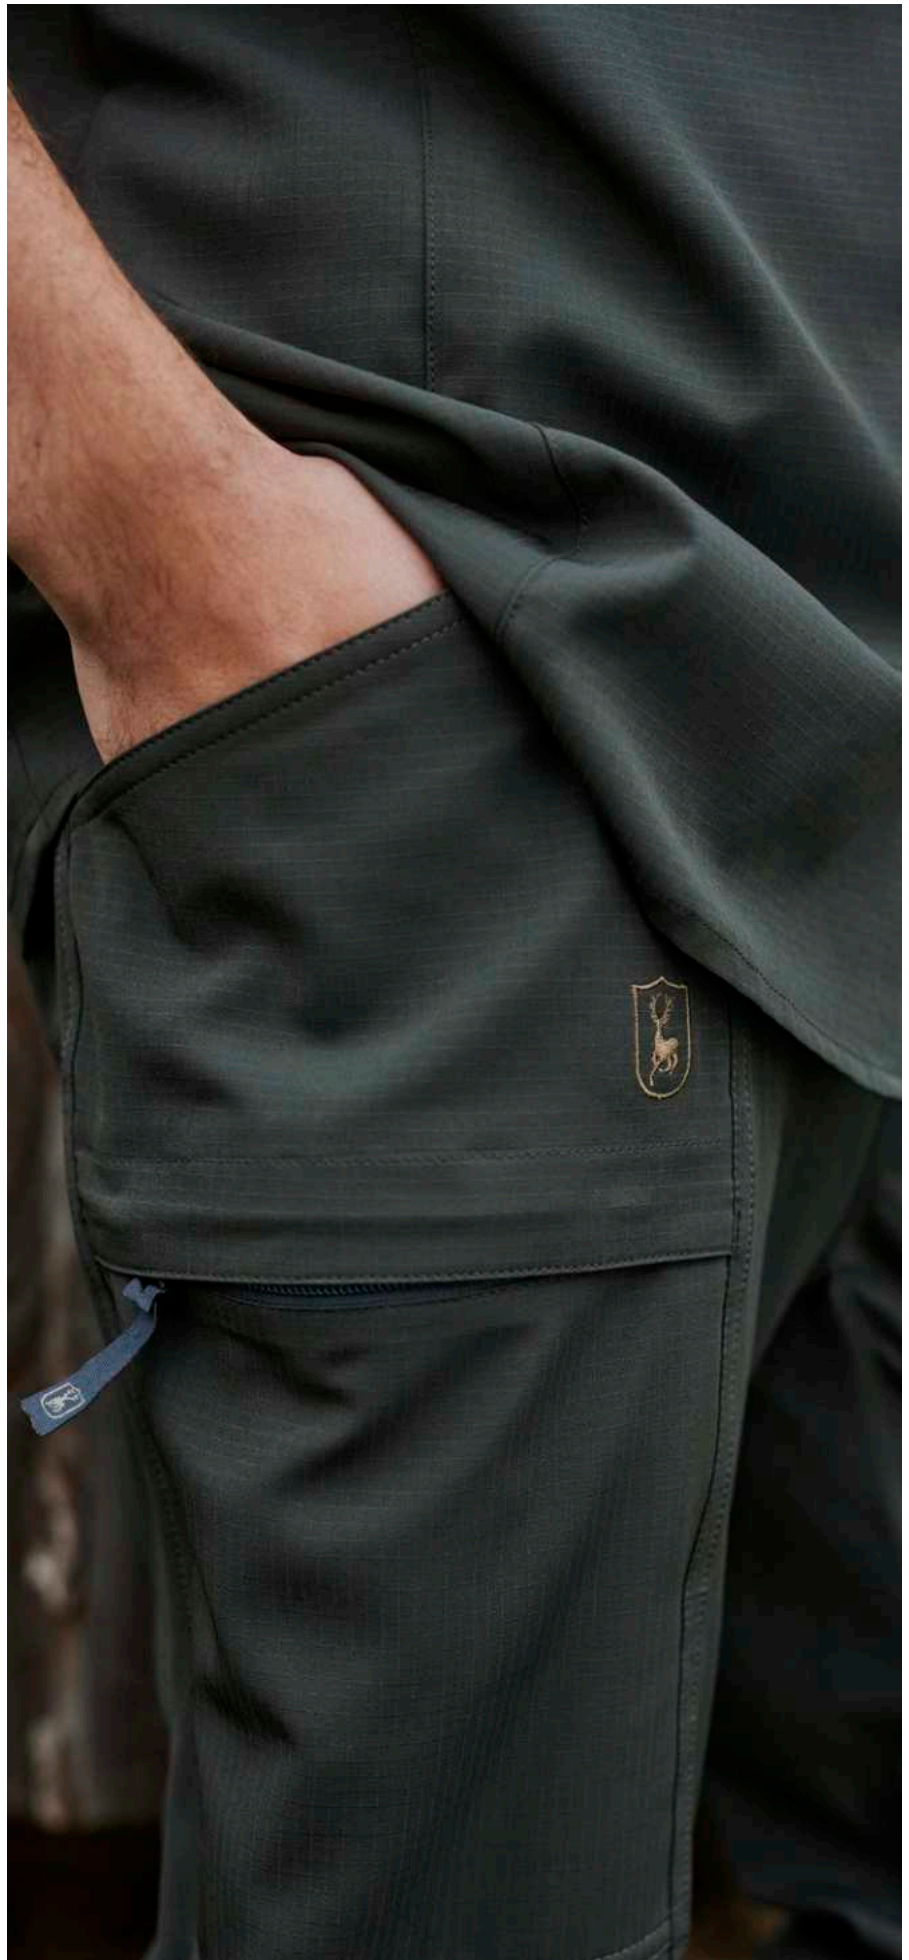

Canopy / Lady Canopy / Matobo

LIGHTWEIGHT COVER IN HIGH TEMPERATURES

Canopy offers your body a cover, when the temperatures rise, due to the cutting-edge design and material that utilize a full-stretch ripstop, which delivers remarkable flexibility and comfort. Canopy boasts a lightweight and highly ventilated construction, ensuring you stay comfortable and agile during your outdoor activities.

Matobo is designed to keep you comfortable, even when stalking through the scorching heat in the southern plains. The range of a shirt, trousers and shorts will keep you cool and level-headed, so you can focus on the game, rather than fight the heat.

SAREK / DENVER

Sarek / Lady Sarek / Denver

EMBRACE THE OUTDOORS WITH SAREK'S WEATHERPROOF GEAR AND STAY WARM WITH DENVER'S COZY OFFERINGS

For outdoor escapades that demand dependable weather protection, Sarek has you covered. Get all your outdoors tasks done, by optimizing your outer layers. Add a new middle or outer layer to your collection, combine the colours of the knits and jackets to your taste, and get the most out of your outdoor wardrobe, even when the weather is trying to hold you back.

Denver ensures you stay cozy in cold climates. Enjoy being outdoors during the winter period with a stylish jacket, and when the temperatures drops too low, you can add a fleece as a middle layer.

Whether you're exploring the wild or hunkering down in the snow, Sarek and Denver are designed to keep you comfortable in the face of nature's challenges.

BASELAYER

MASTER THE INNER LAYER, STAYING DRY AND WARM THROUGHOUT YOUR HUNT

You wouldn't let the rain soak you wet, so why not also ensure that your skin stays dry with an efficient baselayer?

The foundation of a successful hunt begins with the right baselayer. Our baselayers are designed to keep you dry, warm, and comfortable beneath your outer layers. By efficiently transporting moisture away from your skin, these garments help you maintain your focus and endurance throughout your hunting adventure. Trust our baselayers to be your secret weapon for staying comfortable in any hunting season.

Do you prefer wool over synthetic materials?
Or perhaps it is the other way around?
Don't worry, our range of baselayer covers both preferences.

QUICK DRY

Products treated with quick dry are breathable, and dry faster than other garments. Body moisture is absorbed, and wicked away from the skin so that it evaporates. Consequently, it's easier for you to maintain a stable body temperature and stay dry when hunting.

LEATHER

All hunters should own a pair of sturdy leather trousers for hunting! Leather is a very comfortable material, and you can almost walk through anything – they just last. In particular, dog handlers walking through thick vegetation will greatly appreciate wearing leather trousers – in addition to which they are wonderfully warm on cold days.

REINFORCEMENT

If you're stalking your way to your dream buck, or walking across hard terrain, your hunting apparel will be subjected to extra wear and tear. Here, extra reinforcement and durable materials are required.

AZO FREE

During the dyeing process AZO free dyeing have been used. Deerhunter products tagged with AZO free are free of chemicals.

LIGHTWEIGHT

Lightweight clothing from Deerhunter ensures a comfortable hunting experience and provides extra freedom of movement without adding extra weight.

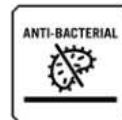

MULESING FREE

Mulesing is a practice in which sections of wool-bearing skin are removed from around the breech of a sheep, to prevent the parasitic infection flystrike. By using mulesing-free merino wool, Deerhunter supports high animal welfare standards.

100% WATERPROOF

Wet and sodden hunting apparel can quickly mar a good hunting expedition. Deerhunter therefore always recommends waterproof products for hunting in rainy weather. A special combination of materials and processes enables us to develop products which are 100% waterproof.

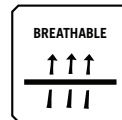

ANTI-BACTERIAL

Anti-bacterial fabric consists of fibres which have been treated to eliminate bacteria growth, reducing the risk of spreading infection whilst also reducing odour, by preventing bacteria attaching to sweat or moisture when the fabric is worn.

ADJUSTABLE LENGTH

The trousers have an extra wide tuck designed to extend the length of the trousers, if needed. A single seam is undone and gives the trousers extra leg length – and remain properly seamed.

BREATHABLE

No matter in which weather situation you find yourself, choosing a breathable Deerhunter® product, allows you to maintain your comfort while being active and subsequently enjoy your experience more.

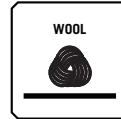

INSULATION

If you want to hunt in very cold temperatures, you will benefit greatly from choosing hunting apparel with insulation. Padding or insulation is designed to keep you warm. It is important that you are able to maintain a stable body temperature throughout the day so that you don't freeze.

THORNPROOF

When nature challenges us in tough terrain, it demands even more of our hunting apparel. Here, Deerhunter has developed its Thornproof products, which are made from extra strong fabrics with the sole purpose of being able to withstand scrub and thorns.

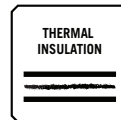

WOOL

Wool is warmer than synthetic fabrics – whether it's wet or dry. Wool wicks moisture much more effectively than cotton, but not quite as well as synthetic fabrics. Wool also takes considerably longer to dry than synthetics.

TWO-WAY STRETCH

If you require extra freedom of movement and a good fit, choose one of Deerhunter's products with stretch. Using materials with two-way stretch makes the hunting apparel stretchable, which enhances your freedom of movement.

THERMAL INSULATION

The weave of the fabric is tailored to maintain a stable body temperature, through thermal insulation that entraps and conserves the body heat within the material. Additionally, it transports the sweat away from the skin, ensuring a comfortable and dry experience.

FOUR-WAY STRETCH

When choosing hunting apparel, and you need maximum flexibility, freedom of movement and a good fit, you should choose Deerhunter's products with four-way stretch. Hunting apparel with four-way stretch is elastic both lengthways and widthways, enabling you to move around freely without feeling constricted by your clothing.

WINDPROOF

If you choose one of Deerhunter's products which have a membrane, it will automatically be windproof. Windproofing is the garment's ability to keep the wind out. If you sit for a long time in a strong breeze, you will quickly appreciate the fact that the garment is windproof.

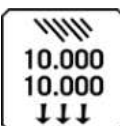

SILENT

Noisy hunting apparel can quickly ruin a good stalk or hunting expedition. Our specially selected silent fabric has been chosen to minimize noise and the design have been optimized to reduce friction around the arm and leg area. Get closer to the animals with Deerhunter Silent.

WATER REPELLENT

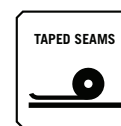

Products impregnated with water repellent treatment are water- and dirt-resistant. Stains are easy to remove and the product gets a very smooth surface.

WATERPROOF & BREATHABILITY

Water penetration resistance is measured in "millimetre water column pressure". The water column pressure is measured by placing a liquid column gauge over the material so that material with water penetration resistance for example 10.000 mm can keep water out from a ten metre (10.000 mm) gauge.

MVP value indicates breathability of a membrane. MVP value is an expression of the quantity of water vapour that can escape through one square meter of a membrane within 24 hours. A breathable product rated at for example 10.000 can therefore "breathe" 10.000 g (10 litres) water vapour per square metre in 24 hours.

TAPED SEAMS

Deerhunter's technical hunting products feature taped seams. Taped seams are often used in connection with different types of membrane to ensure you avoid a wet and sodden hunting experience. Products tagged with taped seams are 100% waterproof.

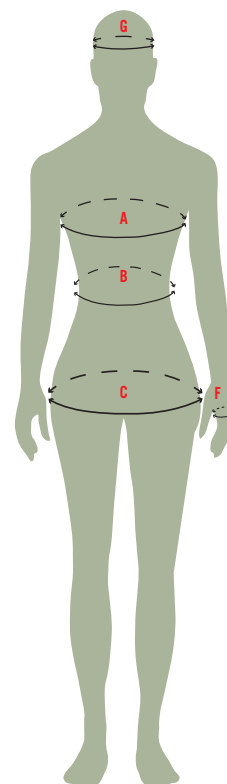

SIZE GUIDE

THIS IS HOW TO MEASURE YOURSELF CORRECTLY

Get someone to help you so you can measure more exactly. Stand in a relaxed position. Place the measuring tape directly on your body. The tape should be reasonably tight, but not too tight. If you allow enough space to slide a finger under the tape, you will get the correct measurements
